Industry**

Path to Decarbonise the Cement Industry

To bring insights on current state and trends of carbon mitigation technologies and strategies in the cement industry, Mission Energy Foundation is organising a two day conference and expo cemCCUS – 2023 specially for the cement sector on on 24-25 August 2023 at Hyatt Centric, New Delhi.

Carbon Capture, Utilization and Storage technologies (CCUS) are set to play a crucial role in the world's future decarbonisation efforts. Alongside other mitigation techniques and further advances in renewable energy innovations, they are increasingly seen as powerful – and necessary – tools to reduce and potentially eliminate carbon dioxide emissions from entering the atmosphere as well as removing existing CO₂ from the air. Innovative technologies with the potential to make a substantial impact on the future of CO₂ emissions reductions from the cement industry are being developed and demonstrated today. With CCUS considered being one of the most practical methods to achieve deep decarbonisation and its involvement in advancing CCUS solutions for the cement sector.

What is abundantly clear is that we need to accelerate and deploy CCUS projects across cement sector to achieve a critical mass of commercial deployment by 2030, in order to reach the economy-wide scale needed to meet mid-century decarbonisation targets. Additionally, the global cement industry has committed to reducing carbon emissions, and research and development of these technologies are actively being pursued to bring most advanced and proven technologies for carbon capture in the cement industry. With many proven technologies in the power industry, it has more quickly been translated to the cement industry; however, it comes with high energy costs but show promise for the future.

Naturally where there are opportunities and there are challenges, not least in the cost-effective transportation and storage of industrial CO₂, storage space and integrity, demand for CO₂, incentivisation and ROI, and the policies needed as well as the legal and regulatory frameworks. Possibly the most daunting challenge will be balancing the energy demands of a truly effective large-scale CCUS infrastructure. To bring insights on current state and trends of carbon mitigation technologies and strategies in the cement industry, Mission Energy Foundation is organising a two day conference and expo cemCCUS – 2023 specially for the cement sector on on 24-25 August 2023 at Hyatt Centric, New Delhi.

HELP@MISSIONENERGY.ORG

cemCCUS - 2023 will unveil the very latest current and emerging technologies from some of the sector's leading experts and energy leaders while providing a showcase for innovative models that can capture carbon's potential by turning CO₂ by-products into profitable applications for cement industry. The conference brings insights on common non-capture strategies for reducing CO₂ emissions, including energy efficiency, the use of alternative fuels, and the increased use of blended cements types. It also gave details on capture technologies, including chemical absorption, oxy-combustion, calcium looping, membranes, and direct capture.

cemCCUS - 2023 will bring together more than 25+ speakers and over 150+ delegates to debate and discuss the latest technologies and solutions, strategies, innovations, current and future regulations, by-products and strategies for captured CO₂ and the latest and next-generation techniques and models to help foster a truly sustainable, cost-effective and resource-efficient CCUS for the cement sector.

Objectives and Outputs cemCCUS - 2023 is to

Bring Cement Industry under one roof to discuss future of CCUS

Discuss views on CCUS in decarbonisation of the Cement Industry

Explore the ways to promote CO₂ usage

Abate industry through carbon finance and other innovative means

Decide way forward and carve out role of decarbonisation of the cement industry

Clarity on the policies which will promote low carbon cement production in India by implementing CCUS projects.

SEE THE LATEST TECHNOLOGY - MEET NEW PARTNERS - EXCHANGE KNOWLEDGE

50+ Exhibitors

The exhibition is the perfect opportunity to showcase your company in front of a highly targeted audience looking to invest in CCUS technology.

Free-To-Attend

Over 30 companies are participating in the exhibition and entry to the exhibit hall is free. Register below and get your free exhibition pass.

2 Day Technical Conference

10 technical sessions, over 25 expert speakers and more than 150 conference attendees

24 - 25 August 2023, Hyatt Centric, New Delhi

Supported By

- cemCCUS 2023 HIGHLIGHTS -

Targeted Exhibition on CCUS for Cement Sector

A highly targeted exhibition hall packed full of domestic and international experts solutions and technology providers of CCUS.

India's Largest Technical Conference on CCUS for Cement Sector

cemCCUS - 2023 will bring together experts from across India and worldwide to Discuss views in CCUS in decarbonisation of the cement industry

Networking Events With Industry Leaders

Whether attending as an exhibitor, visitor of conference delegate, you are sure to meet industry leaders during our entertaining networking events. Extend your network and accelerate your low-carbon strategy.

- THE CONFERENCE -

cemCCUS - 2023 will unveil the very latest current and emerging technologies from some of the sector's leading experts and energy leaders while providing a showcase for innovative models that can capture carbon's potential by turning CO₂ by-products into profitable applications for cement industry. The conference brings insights on common non-capture strategies for reducing CO₂ emissions, including energy efficiency, the use of alternative fuels, and the increased use of blended cements types. It also gave details on capture technologies, including chemical absorption, oxy-combustion, calcium looping, membranes, and direct capture.

cemCCUS - 2023 will bring together more than 25+ speakers and over 150+ delegates to debate and discuss the latest technologies and solutions, strategies, innovations, current and future regulations, by-products and strategies for captured CO₂ and the latest and next-generation techniques and models to help foster a truly sustainable, cost-effective and resource-efficient CCUS for the cement sector.

HELP@MISSIONENERGY.ORG

Topics of DISCUSSIONS

Impact and potential of CCUS on achieving global climate mitigation targets
Application in 'hard-to-decarbonize' cement sectors
CCUS and hydrogen production
Commercialization – cost reduction, investment, and building the business model for CCUS
Policy updates and global regulation,
Carbon pricing and carbon taxing
Updates from latest CCUS projects
CO₂ capture and separation – pre-combustion, post-combustion, oxyfuel combustion
Transportation solutions, compression, handling, and distribution
Storage – selection, planning, construction, and monitoring suitable storage sites
Testing – simulation, safety testing, durability, performance, certification
Materials – membranes, absorbents, activated carbon materials, MOFs
Utilisation – concrete, chemicals, polymers, fuels

WHO SHOULD ATTEND

Cement Industry Representatives
Policy makers and actors interested in environmental policies for industry
Solution & Technology Providers
Technologists and Researchers
Financiers and Entrepreneurs
Equipment Producers and Service Providers
Consultants and Academics
Researchers working on carbon capture, utilisation and storage technologies
... all others with an interest in helping to reduce the environmental impact of cement and concrete production

2 Day Focused Technical Sessions

cemCCUS - 2023 will unveil the very latest current and emerging technologies from some of the sector's leading experts and energy leaders while providing a showcase for innovative models that can capture carbon's potential by turning CO₂ by-products into profitable applications for cement industry. The conference brings insights on common non-capture strategies for reducing CO₂ emissions, including energy efficiency, the use of alternative fuels, and the increased use of blended cements types. It also gave details on capture technologies, including chemical absorption, oxy-combustion, calcium looping, membranes, and direct capture.

cemCCUS - 2023 will bring together more than 25+ speakers and over 150+ delegates to debate and discuss the latest technologies and solutions, strategies, innovations, current and future regulations, by-products and strategies for captured CO₂ and the latest and next-generation techniques and models to help foster a truly sustainable, cost-effective and resource-efficient CCUS for the cement sector.

CALL FOR SPEAKERS OPEN

If you are interested in speaking at the **cemCCUS - 2023** conference we are inviting you to put forward your presentation proposal for review by our international conference advisory board. Please note that not all submissions can be accepted but all will be considered ahead of the final submission deadline.

Deadline For Paper Submission Tuesday, 30 May 2023

Contact:

Janvion Rodrigues, Chief Production

janvion@missionenergy.org, +91 9992 830 831

SPONSOR NOW

Our aim is to deliver you an event that exceeds your expectations, thus becoming an integrated part of your annual marketing program.

Sponsoring **cemCCUS- 2023** will make your company stand out as a leader in this burgeoning industry and will leave a strong impression of your brand in key decision makers minds. Sponsors have an incredible amount of presence and it will not only give your company optimum exposure but also the opportunity for delegates to meet you and your executives to find out more about your role and business opportunities in the sector.

WHY SPONSOR?

- Gain **PUBLICITY** with our advertising and promotional campaigns
- Obtain **DIRECT ACCESS** to potential clients during and after with our meticulously prepared confidential delegate list
- Receive a **KEY SPEAKING POSITION** to address an audience of top executives and decision makers from the industry
- Create **PERMANENT REMINDERS** of your product or services in conference documentation
- Profile yourself as **INDUSTRIAL LEADER**, as your corporate logo and profile will be featured prominently in event marketing collaterals
- **NETWORKING** with the industries leading Government Officials, Senior Level Delegates and Experts
- Achieve **GREATER EXPOSURE** and **BRAND BUILDING** through our partners and much more

Refer to the below tabular of varied sponsorship options and benefits.

Why EXHIBIT?

Showcase Your Company to Thousands of Sales Leads Looking for the Latest CCUS Solutions Throughout during the conference days, there will be a select number of leading solution providers who will discuss and advise on their latest products, solutions and services to a targeted number of senior level decision makers and technology-including regulatory affairs, financing structures and many more... Make sure you stay ahead of the competition and **SECURE YOUR PLACE NOW!**

You will benefit from multiple opportunities to talk with the clients and prospects you want to do business with and kick start your sales. All under one roof and all in just two days - saving you both time and money!

As exhibition space is strictly limited and is already booking fast! For booking of exhibition space, contact our representative right now!

Exhibiting at **CEMS INDIA - 2023** is a cost effective and invaluable tool to help deliver your technology, product, equipment and services to senior decision makers of your core target market and will help grow your business in following ways

- ✦ **ENFORCE** your **BRAND** and promote your services to generate and customers bases interest
- ✦ Meet senior level decision makers to **EASE** of doing **BUSINESS**
- ✦ Make new contacts and **BUILD** lasting **RELATIONSHIPS**
- ✦ **DISPLAY** your **CAPABILITIES** at an international platform to those developers, utilities and manufacturers who need your project financing services or project development technology.
- ✦ Take advantage of a central point of contact from which to **DEVELOP BUSINESS** and raise your profile in this growing sector.
- ✦ **STRENGTHEN** existing **BUSINESS PARTNERSHIPS** and create profitable new leads as you interact with your core customer base.

Reasons You Should Exhibit

- ✦ Promote Your Products
- ✦ Interest in CCUS Has Grown Exponentially
- ✦ Meet Buyers From a Wide Range of Industries
- ✦ Reconnect With The Industry & Your Customers
- ✦ Develop & Strengthen Your Brand
- ✦ Marketing & Promotion

HYATT®

Organiser

The Organisation

Mission Energy Foundation is a persistent, private, not-for-profit endeavour based in Mumbai, India. We are registered under sec 25 (1), 80G & 12AA respectively.

The Beginning

A single man army with its mission to build platforms of discussion, exchange knowledge among industry professionals on core issues pertaining to growing energy sector.

GOAL

Mission Energy Foundation is a micro-enterprise initiative that strives to spread knowledge in the globalising energy sector. We educate and spread technology awareness through ongoing contacts and discussions with the public and industry concerning what the future of the growing energy sector should be...

Today

A human asset working together as one endeavour that expertise in organising and delivering successful international summits involving who's who from Entrepreneurs to Academicians to Government Authorities to Technology Providers to Consultants to Industry Professionals from the growing energy sector globally.

Payment Terms

Payment is required within 10 working days on receipt of invoice. If a booking is received 10 working days before the conference a credit card number will be taken to confirm your place, likewise if full payment has not been received before the conference date.

NOTE:

- Kindly fill the registration form completely
- Kindly provide with a valid email id for correspondence
- A confirmation of the registration will be sent via email after receipt of the payment
- No refund will be made in case of no-show / no-attendance
- Registration fee is exclusive of Government taxes as applicable

Cancellation Policy:

Should a delegate be unable to attend, a substitute delegate from the company is always welcome at no extra charge. Alternatively, for any cancellations, the following rules shall apply

- 70% refund of registration fee if cancellation is done on or before 20 working days of the schedule
- 50% refund of registration fee if cancellation is done on or before 15 working days of the schedule
- Thereafter, no refunds can be made

Important note:

Please quote the name of the participant and event title on the advice when remitting payment. Bank charges to be deducted from the participation organisation's own accounts. Attendance will only be permitted upon receipt of full payment. It may be necessary for reasons beyond the control of the organiser to alter the content or the event date or location or the identity of the speaker/s.
