ENVIRONMENT EXCELLENCE AWARDS - 2025

A curated award evening for environmental excellence, focus on recognizing and celebrating outstanding achievements in environmental stewardship, highlighting innovative solutions, and fostering a sense of community and inspiration.

Environment Excellence Awards - 2025 this year will be presented to power producing units demonstrating highest level of commitment to environment management covering thermal power plants and services sector who demonstrate highest level of commitment and best practice. A biggest opportunity for you to showcase commitment to sustainability, environmental innovation, and responsible business practices. Whether large or small, power plants that have made a significant environmental impact are invited to apply and gain national recognition.

Environment Excellence Awards - 2025: This 9th edition is your chance to be recognised for exemplary environmental initiatives during the performance during the financial year 2024-2025. Open to all Indian organisations from the growing power sector, this award celebrates businesses that have made significant strides in sustainability, innovation, and responsible environmental practices.

The award aims to recognise efforts & commitment to sustainability, environmental innovation, and responsible business practices. Regardless of the nameplate size of a power plant, the environmental initiatives can inspire others and contribute to a greener future and to recognize exemplary operations, systems and the evidence of their impact to business vitality. Mission Energy Foundation awards serve as a catalyst to understanding the intrinsic value of environment management in business excellence and sustainability.

Mission Energy Foundation invites nominations from companies and their units having strong concern and commitment for environment management and is willing to improve their own performance. Over last 17 Years, Mission Energy Foundation serve as an inspiration for the transformative action, business excellence and environment management across the nation and ensures that the evaluation process adheres to the highest standards.

Submit your application NOW and join the leaders shaping a sustainable future.

Organiser

The Organisation

Mission Energy Foundation is a persistent, private, not-for-profit endeavour based in Mumbai, India. We are registered under sec 25 (1), 80G & 12AA respectively.

The Beginning

A single man army with its mission to build platforms of discussion, exchange knowledge among industry professionals on core issues pertaining to growing energy sector.

GOAL

Mission Energy Foundation is a micro-enterprise initiative that strives to spread knowledge in the globalising energy sector. We educate and spread technology awareness through ongoing contacts and discussions with the public and industry concerning what the future of the growing energy sector should be...

Today

A human asset working together as one endeavour that expertise in organising and delivering successful international summits involving who's who from Entrepreneurs to Academicians to Government Authorities to Technology Providers to Consultants to Industry Professionals from the growing energy sector globally.
