“Let's Ensure 100% Utilisation of Fly Ash”

Tackling climate change is impossible without reducing our dependence on fossil fuels, especially coal. The problem is, coal is cheap and developing economies like India prefer low-cost fuel sources.

Coal-fired plants generate 70% of India's electricity. This, combined with the growth of coal-consuming industrial sectors like steel, the solid fuel source will continue to be integral to India's economy in the next couple of decades. This is despite the government's ambitious plans to increase the generation of renewable energy.

India is world's second largest producer of coal; producing a tenth of the world's coal and also being the second largest coal importer in the world.

The Indian government has been pushing for a target of 710 Million Tonne of coal production annually by the end of FY 2022, most of which will be used in the power sector. In this context, current issues — status, policies, regulations, and bottlenecks — regarding the disposal of fly ash generated by thermal power plants are to be examined.

Electricity generation is responsible for two-thirds of India's coal consumption with ~ **35% FLY ASH CONTENTS in Indian coal.**

Recently, the Centre government drafted the new fly ash utilisation rule for Thermal Power Plants(TPPs), bringing them to mandatory utilise 100% of fly ash within three to five years. Existing provisions allow TPPs to fully utilise fly ash in a three-year cycle in a staggered manner.

What does that mean? - Comply or Get Penalised.

It also introduced fines of Rs 1,000 on non-compliant plants under the 'polluter pays principle', taking into account utilisation targets from 01 April 2022.

The "**polluter pays**" principle is the commonly accepted practice that those who produce pollution should bear the costs of managing it to prevent damage to human health or the environment.

Under this, the collected fines will be deposited in the designated account of the Central Pollution Control Board (CPCB) & shall be used towards the safe disposal of the unutilised ash.

Unutilised accumulated ash (legacy ash) where TPPs will have to utilise it within 10 years from the date of publication of final notification in a staggered manner. If not complied, a fine of Rs 1000 per tonne will be imposed on the remaining unutilised quantity which has not been fined earlier.

PARTICIPANTS PROFILE

- ✧ Regulators & Policy Makers
- ✧ Senior Executives of Steel, Power, Cement and Mining
- ✧ Utilities and Power Producers
- ✧ Industries Bodies and Business Chambers
- ✧ Research Institutes & Academia
- ✧ Environmentalists
- ✧ Technocrats & Consultants
- ✧ Logistic Companies & Suppliers
- ✧ Fly Ash Handling Experts
- ✧ Fly ash by-product Producers
- ✧ Construction and Real Estate Companies
- ✧ Scientists and Faculty

Aralea Beach Resort by Stone Wood, Morjim - GOA

“Let's Ensure 100% Utilisation of Fly Ash”

The CONFERENCE

Mission Energy Foundation suggested several policies and regulations—ranging from tighter air pollution standards and efficient technology to developing policy frameworks for managing waste products—to improve the sector. The results of Mission Energy Foundation’s study and its recommendations spurred a wide public debate and, over the last few years, the government announced a series of draft regulations and policies to help improve the sector’s performance. Both coal-based electricity and cement are crucial inputs to economic growth; their substitutability is limited due to various factors, and discussions regarding which are beyond the scope of this article are being discussed at various forums of Mission Energy Foundation.

The **14th edition of FLY ASH UTILISATION 2025**; is intended to provide a forum to meet and discuss the science and applications of coal ash and to transfer knowledge and ideas that will benefit their innovative utilisation, processing, handling, storage, transportation and disposal.

Scenarios of ash generation and utilisation shall be presented by industry experts alongside key technical, regulatory, pricing, logistical, and behavioral issues that shall be addressed to reach complete fly ash utilisation during the three days of value packed technical sessions at FLY ASH UTILISATION 2025.

FLY ASH UTILISATION 2025 - this year is a Three Day Residential Conference scheduled on 6 - 8 March 2025, Aralea Beach Resort by Stone Wood, Morjim - GOA; which is expected to again attract participants worldwide focusing on the business, logistics, technical challenges and opportunities in the coal combustion by-products sector. The two day of 360 degree technical discussions will be packed with multiple networking opportunities among regional and international guests.

14th International Residential Conference + Expo + Awards

Aralea Beach Resort by Stone Wood, Morjim - GOA

“Let's Ensure 100% Utilisation of Fly Ash”

The Fly Ash Utilisation Awards 2025 will again be presented to utilities and their services sector who demonstrate the highest level of commitment and best practice in the utilisation of FLY ASH. Over the years the awards had its aim to recognise exemplary operations, systems and the evidence of their impact on business vitality. The awards serve as a catalyst for understanding the intrinsic value of environmental management in business excellence and sustainability.

This year's Fly Ash Utilisation Awards shall honour innovative developments and solutions for excellence and sustainability among utilities, small and large, who have demonstrated their efforts in better utilisation of fly ash in the years to come ahead...

Mission Energy Foundation invites nominations from companies and their units who have their strong concern and commitment to fly ash utilisation and are willing to improve their own performance.

OBJECTIVE

Encourage & motivate to adopt best practices and become role models for others to emulate.

Encourage implementation of strategies for improvement in operations standards.

ADVANTAGES

Reflects your commitment to Environment Protection & enhances your corporate status and image.

Boosts morale of concerned employees and stakeholders, motivating management and staff of the organization to excel.

BOX Cricket Tournament

6 - 8 March 2025
at Aralea Beach Resort by Stone Wood, Morjim - GOA

BOX Cricket Tournament 2025 IS NOT JUST AVERAGE TEAM BUILDING ACTIVITY. IT'S DESIGNED FOR ENHANCING LEADERSHIP QUALITIES AND FORMING STRATEGIES FOR ACHIEVING A COMMON GOAL.

8 Teams

8 Players per Team

BOX Cricket Tournament – 2025

It doesn't matter whether you know Cricket or not, this activity is just as engaging for a Cricket novice as it is for a passionate veteran. As a team building activity, it checks all the points; Strategy, change management, playing to your skills, competitive analysis, risk vs reward and more.

To increase the focus on enhancing coordination and productivity among the individuals within the team that thereby increasing output for an organisation for serving this purpose; thus, Mission Energy Foundation takes this opportunity to organise "BOX Cricket Tournament" this year during the FLY ASH UTILISATION 2025

Criteria:

8 Teams - 8 Players per Team

Participants need to apply during their registrations, teams will be selected / shortlisted by the organisers on various criteria's set by them

If 4 or more participants are found interested in participating in BOX Cricket Tournament are from the same organisation; then they are eligible to be in a one team and also choose their captain

Necessary cricket gears will be provided by the organisers

Decision of the organisers if final and binding to all.

Organiser

The Organisation

Mission Energy Foundation is a persistent, private, not-for-profit endeavour based in Mumbai, India. We are registered under sec 25 (1), 80G & 12AA respectively.

The Beginning

A single man army with its mission to build platforms of discussion, exchange knowledge among industry professionals on core issues pertaining to growing energy sector.

GOAL

Mission Energy Foundation is a micro-enterprise initiative that strives to spread knowledge in the globalising energy sector. We educate and spread technology awareness through ongoing contacts and discussions with the public and industry concerning what the future of the growing energy sector should be...

Today

A human asset working together as one endeavour that expertise in organising and delivering successful international summits involving who's who from Entrepreneurs to Academicians to Government Authorities to Technology Providers to Consultants to Industry Professionals from the growing energy sector globally.

Mission Energy Foundation (A not-for-profit Organisation)

003, B-16, Sector 1, Shanti Nagar, Mira Road, Thane, Maharashtra - 401107
