In the last eight years, domestic coal production has increased by 37.3%, and domestic coal offtake has increased by 43%. Domestic coal production has increased from 716 MT in FY21 to 777 MT in FY22, a growth of 8.5%. The coal production from captive mines during the same period increased from 66 MT to 86 MT, a growth of 30%. Domestic coal offtake has increased from 691 MT in FY21 to 818 MT in FY22, a growth of 18.4%. Under PM Modi, the coal sector has emerged after an eclipse.

India announced environmental targets as its Nationally Determined Contribution (NDC) under the Paris Agreement in 2016. In order to meet these objectives, coal gasification aids in the decrease of emission levels and the advancement of non-fossil fuel-based energy resources.

COAL GASIFICATION is regarded as a cleaner coal technology when compared to coal combustion and could be used to generate a range of products using clean coal innovations such as hydrogen, methanol, and fertilisers via coal gasification. Carbon fibres and plastic composites made from coal power plant ash/residue. Syngas, according to proponents of coal gasification, can be used to generate power, in energy-efficient fuel cell technology, or as chemical "building components" for industrial applications. The hydrogen can also be extracted and used to power a hydrogen economy. The syngas produced by coal gasification can be used to generate urea and a variety of products such as methanol, Dimethyl ether (DME), and olefins, allowing India to minimise imports and become self-sufficient.

Coal gasification brings several benefits as India is highly import dependent for petro-chemicals and natural gas. The products envisaged in these new projects will provide feedstock for a new industrial economy and promote 'atmanirbharta'. As of now, petrochemicals and gas-related downstream industries are largely dependent on imported feedstock. The import-based LNG terminals located in western India supply imported gas to projects in Gujarat, Maharashtra and Kerala. The new coal-gasification based industries in eastern and central India could be a game-changer, spurring new plants in these sectors and in different regions. The four projects are planned in close proximity of coalfields in West Bengal, Chhattisgarh, Jharkhand and Maharashtra. These were traditional industrial areas of the country, and with the pivot of manufacturing shifting elsewhere, they have for some decades now lagged for want of investments in large industries.

GASIFICATION can only reduce India's dependence upon imported oil for transport fuels, reducing our import bill by a third. India's transport sector will become carbon-neutral and hence, can become a leader in the battle against climate change.

GASIFICATION can only enable a wide range of energy sources including coal, biomass and residual oils to be converted into environmentally-friendly chemicals and fuels. Most of the effluents normally created in atmospheric burning plants are caught before combustion and converted into useful by-products, or captured for safe storage.

Mission Energy Foundation have Religiously and Dedicatedly Given **14 YEARS to the Nation with 12 EVENTS on Coal Gasification**, Creating Forums of Discussion; Exchange of Ideas; Sharing Practical Experiences; Govt. Advocacies & Networking Opportunities to Professionals & Businesses WORLDWIDE.

With all the rights, MISSION ENERGY FOUNDATION urge you all to gather in large scale during **GASIFICATION INDIA - 2022 in its 13th Successful Edition of CONFERENCE - EXPO - AWARDS** scheduled on **15 & 16 November 2022, Hyatt Centric, New Delhi**

"Aatma Nirbhar Bharat - Gasify 100MT coal by 2030. Rs 20,000 crore will be invested in coal gasification projects by 2030 for eco-friendly utilisation of the fuel, which is abundantly available in the country. With this technology, coal can be gasified to turn it into a clean syngas or synthesis gas—a mixture of hydrogen and carbon monoxide — which constitutes the basic building block of the chemical industry and converted into a wide range of downstream products"

"The government will soon use the around 40% unviable coal mines in the country to make urea through coal gasification which will reduce its production cost by around 50%, Union Minister Nitin Gadkari said. Coal gasification will help reduce the ₹55,000 crore subsidy provided by the government on urea every year"

"India will give priority to Coal Gasification. We are prepared to put roadmap for diversified energy basket in place. Coal Ministry to Focus on Coal Gasification to Produce Methanol, Fertilisers over next 3 years"

Successful Ongoing Projects - GEMS OF INDIA

RIL -
Petcoke Gasification, Jamnagar

JSPL -
Coal Gasification, Angul

Essar -
Coal Bed Methane, Raniganj

Under Implementation & Announced Projects in India ...

Talcher Fertilizer - is also currently building a 2.5 MT coal gasification unit with an estimated investment of Rs 13,277 crore.

Dankuni Coal Complex would come up on build-own-operate model and produce 6.76 lakh tonne of methanol a year, and it is expected to be complete by January 2025

₹4,400-crore Lignite Gasification project expected to be implemented on a lumpsum turnkey basis. Engineers India Ltd is likely to be awarded the project management contract.

JSPL has plans of setting up a coal gasification plant -- the second in the country -- at its Raigarh plant in Chhattisgarh

BPCL's new petcoke gasification project will manufacture many value-added petrochemicals like acetic acid, ethanol, methanol, alcohols and hydrogen

ECL has been mandated to produce methanol via Coal Gasification route.

CCL - Have identified a suitable plot in its Ashoka Coal mines in North Karmpura project in Khalari area in Ranchi district and to produce ammonium nitrate via Coal Gasification route.

Western Coalfields Limited to come up with Coal Gasification plant at Chandrapur and to produce ammonium nitrate via Coal Gasification route.

CMPDI - Pre-feasibility report studies are being conducted to set up coal gasification plants in Jharkhand, West Bengal, Odisha and Maharashtra.

Bharat Coking Coal enters CBM extraction with Rs 1,800-cr project, signs joint venture with Ahmedabad-based company and hopeful that the first two phases would be completed earlier than scheduled and production commences sooner than planned.

Initiatives by Govt. of India

The Ministry of Coal, through Atmanirbhar Bharat Abhiyaan, has taken the initiative, National Coal Gasification Mission, that is to utilise coal through coal gasification, with the goal of achieving 100 MT coal gasification by 2030.

In order to support coal gasification and availability of coal for the sector at a concessional rate, the Ministry of Coal has introduced a policy for concessions of 50 per cent in revenue share for commercial auction of coal blocks.

To incentivise more participation and increase coal production, the rebate of 20% was increased to 50% for successful bidders using their coal for coal gasification and liquefaction.

It has also been recommended that all coal companies assign a nodal officer and formulate a plan for gasifying at least 10 percent of their coal production.

SHAKTI policy was implemented in coal gasification projects to minimise operating costs by allocating long-term coal linkages through auction.

The National Coal Gasification Mission took a definite direction, with the finance minister announcing four pilot projects in the 2022-23 Budget.

Centre is likely to issue a policy on the use of methanol as an alternative fuel soon.

the CONFERENCE

GASIFICATION INDIA - 2022 in its 13th Successful Edition of CONFERENCE - EXPO - AWARDS
scheduled on 15 & 16 November 2022, Hyatt Centric, New Delhi.

Conference Theme: Shifting Coal from an Energy Commodity to a Chemical Feedstock

GASIFICATION INDIA has always been a timely event that identifies the opportunities to invest and implement various gasification technologies. It brings together gasification investors & operators, owners, synthetic gas users including power, fertilizer and chemical companies, technology and financiers to discuss critical issues facing the growing sector today!

GASIFICATION INDIA 2022 is an all-inclusive, proficient platform that provides an in-depth analysis of extensive drivers, challenges, restraints, opportunities, present market trends and approach influencing the global gasification industry together with projections and forecasts.

GASIFICATION INDIA 2022 shall cover processing technique, investment plan, services as well as network management. In addition, it discusses gasification supply chain, financial support, retailers' analysis, and marketing channels. Moreover, it describes gasification market entry strategies, opportunities and development challenges predicting the future growth of the gasification market across the globe by integrating the information with relevant findings.

India's only Platform Focussing on COAL GASIFICATION

13th Edition of GASIFICATION INDIA

Parallel Experience of Conferences, Expo & Awards

16+ Technical Sessions including Panel Discussions

60+ Industry Presentations

1000+ Participants

50+ Technology Exhibitors

Well attended by **Government Dignitaries**

Gathering of Industry Leaders – **WORLDWIDE**

2 Days of Value Packed Interactive Sessions

Only Opportunity to **Enhance your Learning & Business**

13th EDITION

GASIFICATION INDIA 2022

+91 98560 98360

HELP@MISSIONENERGY.ORG

[HTTPS://MISSIONENERGY.ORG/GASIFICATION2022/](https://missionenergy.org/gasification2022/)

Who Shall Attend

Leading power generation companies, petrochemical plant operators and the oil refining industry including: managers and directors of gasification, biomass or clean coal technology, power generation, R&D and new technologies, renewable strategy, sustainable technologies, environment and CO2 managers, CTOs, COOs as well as business development executives from technical service providers, consultants and regulators.

Government Institutions, Regulators & Energy planning Authorities

Coal Miners - Fertilizer Manufacturers - Oil & Gas companies - Power Companies - Other gas users - Investors and Financiers - Gasification Technology

Licensors - Technology Upgradation providers - Gas processing and sulphur recovery technology companies

Engineering and construction companies - Waste water treatment & environmental services - Leading research institutes - International association

Chairman, Managing Directors, Technical Director, Commercial Director, Project Director, Residual Waste Service Officers, Chief Investment Officer, Heads of Renewable Energy, Heads of Sustainable Development, Heads of Strategic Developments, Heads of New Project Developments, Alternative Energy Advisors, Assistant Manager, Business Development Manager, Chemistry Professor, Commercial Manager Energy, Contract Development Manager, Heads of Supply Chain Management, Fuel Use Officer, HSE Manager, Energy from Waste Technology Managers, Investment Analysts, Commercial Managers, Heads of Waste Management, Secretary, Joint Secretary (Ministry) & Municipal Commissioners.

Past Events

TIME-LINE AGENDA

Tuesday, 15 November 2022

08.30 Hrs – Registration & Welcome High Tea

09.30 Hrs – Inaugural Function

09.30 Hrs - GASIFICATION INDIA & Waste-to-Energy 2022 – Organiser's Intro

Shri Ashwinkumar Khatri, DG - Mission Energy Foundation

09.40 Hrs - Invited Chief Guest Welcome Address

Shri Pralhad Joshi - Union Minister of Parliamentary Affairs, Coal and Mines

09.50 Hrs - Invited Special Guest Welcome Address

Dr V K Saraswat, Member – NITI Aayog

Invited Industry Keynote Address

10.05 Hrs

Shri Rakesh Kumar, CMD - NLC India Limited

10.10 Hrs

Shri Pramod Agrawal, CMD - Coal India Limited

10.15 Hrs

Shri Naveen Jindal, Chairman – Jindal Steel & Power Limited

10.20 Hrs

Smt. Vartika Shukla, CMD - Engineers India Limited

10.25 Hrs

Shri S N Yadav, CMD – Talcher Fertiliser Limited

**Day 1 – Tuesday
15 November 2022**

10.30 Hrs - Panel Discussion: Gasification – How Ready is India for Clean Energy Technology?

Moderator: Thomas Mathew - President, Reliance Technology Group – Reliance Industries Limited

Panellists:

TBA – Engineers India Limited

S N Yadav, CMD – Talcher Fertiliser Limited

Paramjeet Singh, Additional Industrial Advisor – Ministry of Steel

Anandji Prasad, Advisor Projects – Ministry of Coal

11.00 Hrs - Networking Tea Break

11.30 Hrs - New Gasification Projects: New Challenges and Solutions

S N Yadav, MD – Talcher Fertiliser Limited

TBA – Jindal Steel & Power Limited

TBA – Reliance Industries Limited

TBA – Engineers India Limited

13.00 Hrs - Networking Lunch Break

14.00 Hrs - Versatile Gasification Technologies for Growing Value Chain

TBA – Thermax Limited

TBA

TBA

16.00 Hrs - Networking Tea Break

16.30 Hrs - Gasification Technologies for India's Clean Energy Transition

Rahuel George, Country Head – CASE Group

Varun Kumar, Managing Director – Dev Energy

Petra Muhlen, Co-Owner & CEO – SpectraFlow Analytics AG

18.30 Hrs - Live Entertainment followed by Networking Cocktail Dinner

**Day 2 – Wednesday
16 November 2022**

10.00 Hrs - Panel Discussion: Coal Gasification: Enabler for a Clean Energy Future

Moderator: Prof. Suddhasatwa Basu, Director – CIMFR

Panellists:

Peeyush Kumar, OSD – Ministry of Coal

Dr. Mukesh Kumar, Director, Steel Research Technology Mission of India

TBA

TBA

11.00 Hrs - Networking Tea Break

11.30 Hrs - Gasification Research & Development Focus for Chemical & Fuel Production

Johan Van Dyk, Professor – Gas Technology Institute*

M Lakshmi Narasimhan, Sr. DGM Coal to Chemical & Marketing – BHEL

Narasimhan (Nari) Soundarrajan, Former Research Scientist – Leidos

13.00 Hrs - Networking Lunch Break

14.00 Hrs - The Role of Hydrogen in the Energy Transition

Manoj Kumar Upadhyay, Deputy Adviser, Energy Vertical – NITI Aayog

Dr. Santoshkumar D Bhat, Principal Scientist – CSIR-CERI

Prof G D Yadav, Professor – Institute of Chemical Technology

Prasanto Roy, Managing Director – FTI Consulting

16.00 Hrs - Networking Tea Break

16.30 Hrs - Hydrogen Production Technologies – Make in India

DMR Panda, GM Hydrogen RE – NTPC Renewable Energy Limited

Prodyut Maji, Associate VP – Adani Group

Naresh Lalwani, Head- BD, Green Hydrogen & Derivatives – JSW Group

17.30 - Valedictory Session & End of Conference

Sponsor Now!

Our aim is to deliver you an event that exceeds your expectations, thus becoming an integrated part of your annual marketing program.

Sponsoring this **GASIFICATION INDIA 2022** will make your company stand out as a leader in this burgeoning industry and will leave a strong impression of your brand in key decision makers minds. Sponsors have an incredible amount of presence and it will not only give your company optimum exposure but also the opportunity for delegates to meet you and your executives to find out more about your role and business opportunities in the sector.

Gain **PUBLICITY** with our advertising and promotional campaigns

Obtain **DIRECT ACCESS** to potential clients during and after with our meticulously prepared confidential delegate list

Receive a **KEY SPEAKING POSITION** to address an audience of top executives and decision makers from the industry

Create **PERMANENT REMINDERS** of your product or services in conference documentation

Profile yourself as **INDUSTRIAL LEADER**, as your corporate logo and profile will be featured prominently in event marketing collaterals

NETWORKING with the industries leading Government Officials, Senior Level Delegates and Experts

Achieve **GREATER EXPOSURE** and **BRAND BUILDING** through our partners and much more

Refer to the below tabular of varied sponsorship options and benefits.

EXPO

Throughout during the conference days, there will be a select number of leading solution providers who will discuss and advise on their latest products, solutions and services to a targeted number of senior level decision makers and technology-including regulatory affairs, financing structures and many more... Make sure you stay ahead of the competition and **SECURE YOUR PLACE NOW!**

You will benefit from multiple opportunities to talk with the clients and prospects you want to do business with and kick start your sales. All under one roof and all in just two days - saving you both time and money!

As exhibition space is strictly limited and is already booking fast! For booking of exhibition space, contact our representative right now!

Exhibiting at **GASIFICATION INDIA 2022** is a cost effective and invaluable tool to help deliver your technology, product, equipment and services to senior decision makers of your core target market and will help grow your business in following ways
ENFORCE your BRAND and promote your services to generate and customers bases interest

Meet senior level decision makers to **EASE** of doing **BUSINESS**

Make new contacts and **BUILD** lasting **RELATIONSHIPS**

DISPLAY your **CAPABILITIES** at an international platform to those developers, utilities and manufacturers who need your project financing services or project development technology.

Take advantage of a central point of contact from which to **DEVELOP BUSINESS** and raise your profile in this growing sector.

STRENGTHEN existing **BUSINESS PARTNERSHIPS** and create profitable new leads as you interact with your core customer base.

VISITOR PROFILE

Participants will benefit from the high quality information exchange and networking opportunities. The expo will be marked by the presence of key decision makers and key players from the government and corporate world in India and abroad:

- Diplomats and senior government officials including policy makers and regulatory authorities
- Senior industry leaders from power, coal, chemical, etroleum and many other sectors
- Senior management teams from renowned private and public sector companies
- Entrepreneurs, technologists, operators and service providers
- Energy associates, producers and consumers
- International suppliers and trade organizations
- Equipment suppliers and service Companies
- Environmentalists, research and development scientists
- Investment banks & financial institutions

Global Clean Energy AWARDS 2022

Organisation and individuals in the field of gasification research, development and commercialisation will be recognised who has delivered the highest level of commitment in clean energy generation. Mission Energy Foundation awards serve as a catalyst to understanding the intrinsic value in business excellence and sustainability.

Mission Energy Foundation invites nominations from organisations and individuals having strong concern and commitment for clean energy generation and building a cleaner world that the one you want to live in.

Advantages

Reflects your commitment to Environment Protection & enhances your corporate status and image.

Boosts morale of concerned employees & stakeholders, motivating management & staff of the organization to excel & Develops your clientele

GASIFICATION

CLEAN
ENERGY
AWARD
2022

Objectives

Encourage & motivate to adopt best practices and become role models for others to emulate.

Encourage implementation of strategies for improvement in operations standards.

13th EDITION

GASIFICATION INDIA 2022

15 & 16 November 2022, Hyatt Centric, New Delhi

+91 98560 98360

HELP@MISSIONENERGY.ORG

[HTTPS://MISSIONENERGY.ORG/GASIFICATION2022/](https://missionenergy.org/gasification2022/)

"You're building the future. Please build the one you want to live in." – **A CLEAN WORLD with CLEAN ENERGY...**

Throughout the last 13 years Mission Energy Foundation have delivered successful platforms of knowledge dissemination on various subjects like Gasification, Waste-to-Energy, Fly Ash Utilization, Biomass, Solar and Wind gathering who's who from Entrepreneurs to Academicians to Government Authorities to Technology Providers to Consultants to Industry Professionals from the growing energy sector globally.

The Organisation

Mission Energy Foundation is a persistent, private, not-for-profit endeavour based in Mumbai, India. We are registered under sec 25 (1), 80G & 12AA respectively.

The Beginning

A single man army with its mission to build platforms of discussion, exchange knowledge among industry professionals on core issues pertaining to growing energy sector.

GOAL

Mission Energy Foundation is a micro-enterprise initiative that strives to spread knowledge in the globalising energy sector. We educate and spread technology awareness through ongoing contacts and discussions with the public and industry concerning what the future of the growing energy sector should be...

Today

A human asset working together as one endeavour that expertise in organising and delivering successful international summits involving who's who from Entrepreneurs to Academicians to Government Authorities to Technology Providers to Consultants to Industry Professionals from the growing energy sector globally.

Parallel Conference

You want to pay from credit card (Only Indian VISA Cards accepted) you may do it from below link <https://missionenergy.org/payment.html>

Payment Terms

Payment is required within 10 working days on receipt of invoice. If a booking is received 10 working days before the conference a credit card number will be taken to confirm your place, likewise if full payment has not been received before the conference date.

- NOTE:**
- Kindly fill the registration form completely
 - Kindly provide with a valid email id for correspondence
 - A confirmation of the registration will be sent via email after receipt of the payment
 - No refund will be made in case of no-show / no-attendance
 - Registration fee is exclusive of Government taxes as applicable

Cancellation Policy:
Should a delegate be unable to attend, a substitute delegate from the company is always welcome at no extra charge. Alternatively, for any cancellations, the following rules shall apply

- 70% refund of registration fee if cancellation is done on or before 20 working days of the schedule
- 50% refund of registration fee if cancellation is done on or before 15 working days of the schedule
- Thereafter, no refunds can be made

Important note:
Please quote the name of the participant and event title on the advice when remitting payment. Bank charges to be deducted from the participation organisation's own accounts. Attendance will only be permitted upon receipt of full payment. It may be necessary for reasons beyond the control of the organiser to alter the content or the event date or location or the identity of the speaker/s.

Please note: If you have not received an acknowledgment before the conference, please call us to confirm your booking.
