

HSE Risk Management

OIL & GAS INDUSTRY

22 - 23 OCTOBER 2013
NDCC Convention Centre, New Delhi

A Dedicated International Summit for HSE, RISK, ASSET and OPERATION Managers
Designed and Shaped by Oil and Gas Industry Professionals Across Asia-Pacific

There is no such thing as a fool-proof HSE risk management programme.

Every single disaster, accident or mishap can deliver a devastating blow to your bottomline and your company's reputation.

The key question is: **What strategies can you put in place to prevent major hazards and costly downtime in your operations and installations?**

HSE Risk Management - Oil & GAS brings together real-life case studies to help you manage risk before it becomes a crisis:

Improve your business performance by achieving HSE excellence across your operations

Integrate and harmonise HSE risks inherent in your operator-contractor relationship

Optimise your HSE risk management plan by applying innovative solutions and practical tools

Effectively develop an integrated, dynamic approach to risk management from concept to operations

REDUCE RISK AND AVOID DOWNTIME

22 - 23 OCTOBER 2013

NDCC Convention Centre, New Delhi

WELCOME

I am sure you know as well as I that there's no shortage of HSE conferences competing for your time and attention.

Usually, they'll promise much, but deliver little more than self-promotion and soundbytes. With the close cooperation of our entire speaker panel, Mission Energy Foundation has designed this event to be different. Here's how:

A 16-strong, case-study-only speaker panel will allow you to discover the ways your peers and partners are identifying and minimising more risks than you

A niche, targeted and independently-researched agenda will deliver practical – not theoretical – tools you can really implement back at the office

Closed-door interactive sessions will provide an open and honest opportunity to tap into your peers' real risk management experience and brainstorm open and honest solutions to your problems

All of our speakers have been specifically requested to avoid the corporate HSE headlines and focus on the real story, the real challenges and the real solutions you can use.

So make sure you don't miss out on this groundbreaking event – an event which promises to deliver real take-home value that you can immediately apply to your own company's operations.

Ashwinkumar | Director General
Mission Energy Foundation (A not-for-profit Organisation)

EARLY BIRD DISCOUNT

Register as a conference delegate before or on 20th September 2013 and take advantage of our early bird discounted delegate fee.

REGISTRATION FORM

Call for Paper

Submit the extended abstract and full paper in English in electronic form as follows to secretariat@missionenergy.org

Extended Abstract

Limited to 2 full pages, including paper title, authors and affiliations, brief description of work with result and discussion, collusion and important references.

Full papers

Limited to 5 full pages, including paper title, authors and affiliations, Introduction, description of the work result and discussion, conclusions and important references.

Format Standards

- Total file size: Not to exceed 2 MB for extended abstract and 4 MB for the full paper and both should be in PDF format
- Font: Times New Roman 14 for paper title and 12 for body
- Line spacing: Single spacing

Accepted and presented papers will be published in the conference proceedings, and included in the Handouts.

Dead Lines:

Extended Abstract Paper Submission	: 15 September 2013
Notification of Acceptance	: 22 September 2013
Final Submissions Due	: 29 September 2013
Early Bird Registration	: 20 September 2013
Conference Date	: 22nd & 23rd Oct 2013
Conference Venue	: NDCC II Convention Centre NDMC Complex, Parliament Street New Delhi, India

SPONSORSHIP OPPORTUNITIES

Rest assured – HSE Risk Management - Oil & Gas Industry is not a trade show! It is a forum designed by operators and contractors in the region to bring together the leading players and most pioneering expertise in the HSE field. We are able – through our sponsorship and exhibitor packages – to provide you with direct access to the people that you need to meet!

We have a variety of packages to suit your needs. For more information and full details, please contact Mr. Dalvi at: dalvi@missionenergy.org, +91 9819984844

Introducing a new kind of HSE conference
... an HSE conference delivering solutions, not soundbytes
..... delivering practicalities delivering value.

NEW DELHI INDIA

New Delhi is located at 28.61°N 77.23°E, and lies in Northern India. The city's importance lies not just in its past glory as the seat of empires and magnificent monuments, but also in the rich and diverse cultures.

The capital has a charming mix of old and new world. On one side you can see old architectural sites, buzzing streets and exotic markets, and on the other side New Delhi has magnificent malls, swan by overbridges, modern opulent high rise buildings and lots of greenery. New Delhi has been the political hub of India. Every political activity in the country traces its roots here. This was true even of the mythological era. The Pandavas of the Mahabharata had their capital at Indraprastha, which is believed to have been geographically located in today's Delhi.

Why you can not miss this events

This conference will deliver proven, practical tools that can be applied to optimise HSE risk management and to effectively identify, avoid and communicate risk throughout the operations. Attend to discover how you can:

- Manage risk throughout the project lifecycle with the world-class techniques and apply them in your Indian and International operations
- Create a truly safe operating culture by applying the lessons from leading international Oil & Gas operator
- Roll out a comprehensive HSE risk management programme using the tips and strategies championed by a leading National Oil Company (NOC) across their corporate HSE department
- Harmonise risk management between operators and contractors drawing on the regional experiences
- Develop an integrated, dynamic approach to risk Management from the boardroom to the rig floor using the innovative approach
- Reduce the cost of failure by managing risks during the exploration, construction and operation phases of project development

Participation from sectors

Oil & GAS Exploration

Shipping

Ship Building & Ship Repair

Logistics & Air Transport

Engineering, Procurement & Consultants

Marine Surveying & Diving Services

11:00	From Greenfield To Brownfield: Fresh Approaches To Manage Asset Integrity Risk Throughout The Project Lifecycle Shri Vij, ED-HSE - Engineers India Ltd

As an industry we continually strive to provide safe, healthy, and secure workplaces; protect the environment, uphold and promote human rights, and respect cultural norms and values everywhere we operate. These commitments are the cornerstones of the E&P industry's social responsibility programmes. The need for our companies to deliver excellence in performance continues to grow with the increasing awareness of a global society who is concerned about the protection of people, natural resources and the way we live. Our work has the potential to impact people, the environment and society but through good management practices, we are able to sustainably make use of the resources which we use.

In this session we will take a look at how we can effectively manage, measure, and advance our HSE and SR performance across India to achieve excellence in the years ahead.

- HPCL

Evening Session

Monitoring Environmental Impacts in Sensitive Environments

16:00	To Be Advised - IOCL
16:30	To Be Advised - OIL
17:00	To Be Advised - GAIL

Keynote Plenary Session

Safety Leadership—Performance, Culture and Risk

17:30	When operating in environments with multiple dependent and independent variables (many of which may be correlated in ways which are not obvious) decisions have to be made faced with ambiguity and armed with only imperfect information. Because of this, a compliance or process-based approach to risk and safety will always be insufficient. In this session we will examine additional factors in a more holistic culture of safety management, including behavioural safety, operational excellence and leadership. The presentation includes a short case study.
