India's only Expo on Hydrogen & Fuel Cell Technologies

Specially Focussing on Technologies & Solutions
For a Low-Carbon Hydrogen Future in making of
Atma Nirbhar Bharat...

HYDROGEN TECHNOLOGY EXPO - 2024, in its 2nd annual edition and a must-attend exhibition and conference that is exclusively dedicated to discussing advanced technologies for the hydrogen and fuel cell industry. The event brings together the entire hydrogen value chain to focus on developing solutions and innovations for low-carbon hydrogen production, efficient storage and distribution as well as applications in a variety of stationary and mobile applications.

More than 60+ exhibitors, 25+ speakers and over 1,000+ attendees will come together to discuss, and see, the latest technologies and engineering solutions, advanced materials, manufacturing equipment, infrastructure, as well as test and evaluation tools and services to finally commercialize hydrogen as a mainstream provider of clean, renewable energy.

- FOCUSED COVERAGE ON -

LOW-CARBON HYDROGEN PRODUCTION

STORAGE SOLUTIONS

SEE THE LATEST TECHNOLOGY - MEET NEW PARTNERS - EXCHANGE KNOWLEDGE

60+ Exhibitors

The exhibition is the perfect opportunity to showcase your company in front of a highly targeted audience looking to invest in hydrogen technology.

Free-To-Attend

Over 60 companies are participating in the exhibition and entry to the exhibit hall is free. Register below and get your free exhibition pass.

2 Day Technical Conference

4 individual conference tracks, over 25 expert speakers and more than 150 conference attendees

- TECHNOLOGIES & SOLUTIONS ON DISPLAY -

In the main exhibit hall, attendees will find a full range of hydrogen production & storage solutions, fuel cell technologies, engineering partners, plant technologies, advanced materials, components, and infrastructure systems.

- | | | |
|---|-----------------------------------|---|
| Low-carbon hydrogen production | Storage systems | Heating with hydrogen |
| Storage solutions | Industrial plant technologies | Fuel cell components and auxiliaries |
| Infrastructure solutions | Liquefaction technologies | Thermal management |
| Electrolyzers | Advanced materials and composites | Electrocatalysts |
| Energy conversion | Gasification technology | Fuel cell manufacturing and assembly |
| Compression technology | Test, simulation and evaluation | Refueling solutions |
| Catalysts | Safety systems | Internal combustion assistance (ICA) for cleaner diesel engines in HGVs and more... |
| Hydrogen from biomass | Hydrogen fuels | |
| Hydrogen-Power and Power-to-X | Hydrogen injectors | |
| Carbon capture, utilization and storage (CCUS) and hydrogen | Line assemblies | |
| Membrane solutions | Fuel-cell control units | |

Solutions for a Wide Range of End-User Application & Industries in Attendance

Hydrogen Technology Expo will provide the industry with a unique opportunity to meet more than 60+ suppliers to the advancing hydrogen sector in India. Find the latest technology, components, raw materials, test and evaluation tools, and engineering solutions providers in the exhibition hall and network with a wide range of industries looking to adopt hydrogen and fuel cell technology to decarbonise their industry.

Hydrogen Technology Expo 2023 will host more than 1,000 hydrogen and fuel cell experts from across the technical supply chain and from a wide range of end-user industries including:

Hydrogen Producers

Fuel Cell Manufacturers

Oil & Gas

Energy & Utilities

Heavy Industries

Gas Pipe Operators

Petrochemicals

Industrial Engineering

Offshore Energy

Automotive

Rail

Aviation

- EVENT HIGHLIGHTS -

Targeted Exhibition

A highly targeted exhibition hall packed full of the latest technologies and solutions to develop hydrogen & fuel technology for a wide range of applications.

India's Largest Technical Hydrogen Conference

Hydrogen Technology Expo Conference focuses on technical and engineering solutions - gain the knowledge you need to advance your hydrogen project.

Networking Events With Industry Leaders

Whether attending as an exhibitor, visitor, or conference delegate, you are sure to meet industry leaders during our entertaining networking events. Extend your network and accelerate your low-carbon strategy.

Why EXHIBIT?

Showcase Your Company to Thousands of Sales Leads Looking for the Latest Hydrogen Solutions

Interest in hydrogen as part of a low carbon energy mix for the future has grown exponentially and is set to become a key renewable energy source. Many new companies are entering the market with new technologies and engineering solutions, whilst government and private investment to develop a clean hydrogen economy in India has increased significantly. Hydrogen Technology Expo 2023 is the perfect place to demonstrate your company's latest solutions for developing a low carbon hydrogen future.

Showcase your company to a highly targeted audience actively looking for the latest engineering partners, technologies, R&D tools, materials, infrastructure solutions, fuel cell technology, and components. Combined with a high-level conference and more than 1,000+ attendees from a wide range of industries looking to develop hydrogen solutions the exhibition is the perfect place to get back to business.

Reasons You Should Exhibit

Promote Your Hydrogen Products

Interest in Hydrogen Has Grown Exponentially

Meet Buyers From a Wide Range of Industries

Reconnect With The Industry & Your Customers

Develop & Strengthen Your Brand

Marketing & Promotion

- THE CONFERENCE -

The concept of hydrogen as a clean and renewable energy source is nothing new. However, a number of technical and economic challenges need to be overcome before hydrogen can be fully realized as a major contributor to reducing global carbon emissions.

Hydrogen Technology Expo - 2024 is a solutions-driven trade fair and conference dedicated to the development of new technologies to overcome these technical challenges and propel hydrogen into the mainstream for stationary and mobile applications.

This must-attend event brings together the entire supply chain to discuss everything from technologies and solutions for low-carbon hydrogen production, efficient storage, transport and infrastructure, as well as advanced design, testing and development, manufacturing solutions and advanced materials for hydrogen fuel cells.

Latest Hydrogen Technology

Hydrogen Technology Expo - 2024 is the must-attend event for anyone looking to find the latest technologies and solutions for India's rapidly emerging hydrogen economy. Meet new suppliers, as well as some of the biggest names in the industry who will be demonstrating the very latest technology, solutions, materials, components, test & evaluation tools, and engineering capabilities to help accelerate your next hydrogen project.

Hear from 50 + Expert Speakers

Hydrogen Technology Conference will feature more than 50 speakers and involve more than 400 participants from a wide range of industries. The conference sessions and topics will focus on technical and R&D solutions to develop and overcome some of the main barriers to hydrogen and fuel cell adoption. Targeted tracks and sessions will fall under the main categories of clean hydrogen production, storage solutions, infrastructure development, and fuel cell design, development, and manufacturing.

Expand Your Network

The exhibitor hall and conference offer the perfect opportunity to make new industry connections, as well as rekindle existing relationships. Attend the dedicated networking sessions and find new business partners, arrange meetings with our sponsors and exhibitors, and expand your social network with new companies joining the growing hydrogen industry in India

Latest on Fuel Cell Technology

Current hydrogen fuel cells have many disadvantages vs lithium-ion batteries, but they also have many advantages too. Hydrogen Technology Conference will feature a 2-day conference dedicated to exploring the technical and engineering challenges of hydrogen fuel cells, as well as overcoming manufacturing and economic challenges that could see fuel cell technology become the primary option

Hydrogen CONFERENCE

2 Day Focused Technology Tracks

Hydrogen Technology Expo will host India's must-attend techno-economic hydrogen conference focusing on the development of low-carbon hydrogen production, storage, and infrastructure development. Focussed technology tracks will take during two conference days for attendees and speakers having the option to move freely between the different sessions.

Hydrogen Production, Storage, and Infrastructure Development

Thursday, April 25, 2024

Hydrogen Production, Storage, and Infrastructure Development

Bringing together hydrogen producers, energy majors, the oil and gas industry, pipeline operators, offshore wind and energy companies, utilities giants, port authorities, airports, renewable energy investors, engineering firms, heavy industry, steel producers, chemical and process industries, and technology suppliers, this conference will discuss and debate challenges, opportunities, and most importantly – solutions, to the emerging green hydrogen economy in North America. Topics will include, but not be limited to:

- Primary energy sources for green hydrogen production – solar, wind, biomass, nuclear
- Energy conversion – electrolysis, biochemical, thermochemical, reforming
- Design, simulation, test, monitoring, and control solutions for hydrogen plants
- Driving down the cost of low carbon hydrogen
- Business models for low carbon hydrogen
- Building and integrating a global network for green hydrogen distribution
- Refuelling solutions
- The role of green hydrogen in decarbonising heavy industry
- Incorporating clean hydrogen into the renewable energy mix
- Hydrogen storage – liquefaction, compression, material-based, hydride storage, sorbents
- Regulation and investment requirements to enable rapid scale-up and adoption

Fuel Cell Design, Development, & Manufacturing

Friday, April 26, 2024

Hydrogen Fuel Cell Design, Development, & Manufacturing

Our second day conference track will bring together fuel cell manufacturers, materials suppliers, technical and engineering consultants, systems integrators, research institutes, NGO's, as well as a wide range of end user markets to discuss the techno-economic challenges that must be overcome for wide scale commercialisation and adoption of hydrogen fuel cells. The two-day conference will prioritise presentations that showcase innovative solutions to drive down cost, increase efficiency, improve durability and reliability, and for scale-up for mass manufacturing. Topics will include, but not be limited to:

- Fuel cell market forecasts and regulation
- Fuel cell materials – SOFC, coatings, catalysts, composites
- PEM and fuel cell stacks – latest developments and improvements
- Test and development – simulation, durability, range and performance, safety, certification
- Design and packaging, size, weight, and integration with mobile and stationary applications
- Air, thermal, and water management
- Cost reduction, manufacturing, and automation of production
- New applications, marine, aerospace, E-VTOL, UAV, drone, and space technology

CALL FOR SPEAKERS OPEN

If you are interested in speaking at the 2024 conference we are inviting you to put forward your presentation proposal for review by our international conference advisory board. Please note that not all submissions can be accepted but all will be considered ahead of the final submission deadline.

We encourage proposals from speakers with deep technical and practical expertise in all aspects of Hydrogen Technology

Deadline For Paper Submission Thursday, 15 December 2023.

TOPIC AREAS FOR SUBMISSION

We are accepting any relevant proposals that may involve, but are not limited to, the following topics:

Primary energy sources for low-carbon hydrogen production – solar, wind, biomass, nuclear
Energy conversion – electrolysis, biochemical, thermochemical, reforming
Building and integrating a North American and global network for green hydrogen distribution
Hydrogen storage – liquefaction, compression, material-based, hydride storage, sorbents
Fuel cell market forecasts and regulation
New applications, marine, aerospace, E-VTOL, UAV, drone, and space technology
Scalable hydrogen-based propulsion systems
Dual-fuel flexibility conversion
Impact and potential of CCS on achieving global climate mitigation targets
Commercialisation – cost reduction, investment, and building the business model for CCS
Blue Hydrogen and Carbon Capture
Regulations and policies concerning Hydrogen Technology and/or Carbon Capture economies

- PRESENTATION FORMATS -

- PROPOSALS THAT WILL BE GIVEN PREFERENCE IN THE REVIEW PROCESS -

Talks that reveal new ways of thinking about and applying technologies to the Hydrogen Technology debate

Talks that feature content never seen before and not available online, but has been created specifically for this event

Real-world examples that show a novel application of technology or illustrate a solution to a technical challenge in an end product, including a detailed discussion of the trade-offs and choices made

Talks that engage the audience in a highly creative or interactive way

Legislative talks discussing current and possible future laws governing the material use and production processes.

In general, we look for speakers who are willing to share their knowledge to help design and innovation continue and grow. Proposals that aim to market a specific company or product will not be considered.

- CALL FOR SPEAKERS SUBMISSION PROCESS -

Proposals must be submitted by online speaker registration mode. If selected to speak, all presenters will be required to submit a presentation in PowerPoint format at least 2 weeks in advance of the conference to ensure guidelines are met.

If you have any questions, please contact

Sponsor Now!

Our aim is to deliver you an event that exceeds your expectations, thus becoming an integrated part of your annual marketing program.

Sponsoring this **HYDROGEN TECHNOLOGY EXPO - 2024** will make your company stand out as a leader in this burgeoning industry and will leave a strong impression of your brand in key decision makers minds. Sponsors have an incredible amount of presence and it will not only give your company optimum exposure but also the opportunity for delegates to meet you and your executives to find out more about your role and business opportunities in the sector.

Gain **PUBLICITY** with our advertising and promotional campaigns

Obtain **DIRECT ACCESS** to potential clients during and after with our meticulously prepared confidential delegate list

Receive a **KEY SPEAKING POSITION** to address an audience of top executives and decision makers from the industry

Create **PERMANENT REMINDERS** of your product or services in conference documentation

Profile yourself as **INDUSTRIAL LEADER**, as your corporate logo and profile will be featured prominently in event marketing collaterals

NETWORKING with the industries leading Government Officials, Senior Level Delegates and Experts

Achieve **GREATER EXPOSURE** and **BRAND BUILDING** through our partners and much more

Organiser

The Organisation

Mission Energy Foundation is a persistent, private, not-for-profit endeavour based in Mumbai, India. We are registered under sec 25 (1), 80G & 12AA respectively.

The Beginning

A single man army with its mission to build platforms of discussion, exchange knowledge among industry professionals on core issues pertaining to growing energy sector.

GOAL

Mission Energy Foundation is a micro-enterprise initiative that strives to spread knowledge in the globalising energy sector. We educate and spread technology awareness through ongoing contacts and discussions with the public and industry concerning what the future of the growing energy sector should be...

Today

A human asset working together as one endeavour that expertise in organising and delivering successful international summits involving who's who from Entrepreneurs to Academicians to Government Authorities to Technology Providers to Consultants to Industry Professionals from the growing energy sector globally.

You want to pay from credit card (Only Indian VISA Cards accepted) you may do it from below link <https://missionenergy.org/payment.html>

Payment Terms

Payment is required within 10 working days on receipt of invoice. If a booking is received 10 working days before the conference a credit card number will be taken to confirm your place, likewise if full payment has not been received before the conference date.

NOTE:

- Kindly fill the registration form completely
- Kindly provide with a valid email id for correspondence
- A confirmation of the registration will be sent via email after receipt of the payment
- No refund will be made in case of no-show / no-attendance
- Registration fee is exclusive of Government taxes as applicable

Cancellation Policy:

Should a delegate be unable to attend, a substitute delegate from the company is always welcome at no extra charge. Alternatively, for any cancellations, the following rules shall apply

- 70% refund of registration fee if cancellation is done on or before 20 working days of the schedule
- 50% refund of registration fee if cancellation is done on or before 15 working days of the schedule
- Thereafter, no refunds can be made

Important note:

Please quote the name of the participant and event title on the advice when remitting payment. Bank charges to be deducted from the participation organisation's own accounts. Attendance will only be permitted upon receipt of full payment. It may be necessary for reasons beyond the control of the organiser to alter the content or the event date or location or the identity of the speaker/s.

Payment Terms

Payment is required within 10 working days on receipt of invoice. If a booking is received 10 working days before the conference a credit card number will be taken to confirm your place, likewise if full payment has not been received before the conference date.

NOTE:

- Kindly fill the registration form completely
- Kindly provide with a valid email id for correspondence
- A confirmation of the registration will be sent via email after receipt of the payment
- No refund will be made in case of no-show / no-attendance
- Registration fee is exclusive of Government taxes as applicable

Cancellation Policy:

Should a delegate be unable to attend, a substitute delegate from the company is always welcome at no extra charge. Alternatively, for any cancellations, the following rules shall apply

- 70% refund of registration fee if cancellation is done on or before 20 working days of the schedule
- 50% refund of registration fee if cancellation is done on or before 15 working days of the schedule
- Thereafter, no refunds can be made

Important note:

Please quote the name of the participant and event title on the advice when remitting payment. Bank charges to be deducted from the participation organisation's own accounts. Attendance will only be permitted upon receipt of full payment. It may be necessary for reasons beyond the control of the organiser to alter the content or the event date or location or the identity of the speaker/s.
