[HTTPS://MISSIONENERGY.ORG/WATER2022/](https://missionenergy.org/water2022/)

Mission Energy Foundation takes privilege to announce yet another initiative for the power sector with its **4th year** of successful organising the Conference + Expo + Awards **WATER OPTIMISATION - 2022** which is intended to provide a forum to meet and discuss the science and applications to improve power generation and reduce specific water consumption through best practices in water efficiency as well as technological efforts.

**WATER OPTIMISATION - 2022** is again expected to attract participants worldwide focussing on policy initiatives, challenges and way forward for thermal power plants in our country with 360 degree if technical discussions & multiple networking opportunities among regional and international guests.

## CONFERENCE

Water Optimisation 2022 is intended to provide a forum to meet and discuss the latest water consumption norms issued by the MoEFCC for thermal power plants, key challenges faced by power projects, solutions adopted or available for low water consumption, focus on cooling & ash handling systems, project & technology showcase, waste water treatment and many important aspects and case studies shall be presented during the conference.

## EXPO

A cost effective and invaluable tool to help deliver your technology, product, equipment and services to senior decision makers throughout during the conference days. There will be a select number of leading solution providers who will discuss and advise on their latest products, solutions and services to a targeted number of senior level decision makers and technology-including regulatory affairs, financing structures and many more...

## AWARDS

The Water Optimisation AWARD 2022 will be presented to utilities and its services sector who demonstrate highest level of commitment and best practice in smart consumption of water at thermal power plants. Over the years the awards will aim to recognize exemplary operations, systems and the evidence of their impact to business vitality. The awards serve as a catalyst to understanding the intrinsic value of business excellence and sustainability.

1

Only platform to meet and discuss the latest Government's Policy Initiatives and industry best practices for water consumption in TPP's...

2

A cost effective and invaluable tool to help technology, product, equipment and services to senior decision makers from the power sector...

3

Encouraging utilities and its services sector who demonstrate highest level of commitment towards environment protection in India...

## WIDESPREAD NON-COMPLIANCE AS THERMAL POWER PLANTS DON'T MEET WATER USE NORMS

Coal-based thermal power plants (TPPs) consume vast quantities of accounting for close to 70 per cent of all water used for industrial purposes in India. Given this, thermal power plants can cause significant water stress in the local area, especially if they are present in clusters making WATER usage in power plants a critical issue. According to recent government data, over 8,000-10000 MW of thermal capacity was forced to shut down for acute water scarcity in the past couple of years. Moreover, developers are facing increasing difficulty in the selection of new sites for planned projects across the country. With water being a key input for several important plant processes such as cooling towers and ash handling systems, there is already a growing realisation amongst power plant operators about the need to reduce specific water consumption through best practices in water efficiency as well as technological efforts.

In December 2015, the Ministry of Environment, Forest and Climate Change (MoEFCC) brought out a notification that set limits for the first time on how much water a thermal power plant can use per unit of electricity generated, called 'specific water consumption'. These regulations mandated that TPPs set up before January 1, 2017, should not use more than 3.5 Cubic Metres / MWh of water (equivalent to 3.5 litres of water per unit (KWh) of electricity generated) and those built after the date cannot exceed 3 Cubic metres/MWh. Power plants using sea water are exempted from this, and all plants had to meet the norms within two years of the notification, that is, by December 2017.

Out of the total 156 plants/ units for which we could obtain the status, 66 claimed that they complied with the water consumption limits, while 30 admitted that they were non-compliant. For another 46 plants, either data was not available, or replies were ambiguous or the plants were closed. As other 14 plants were using sea water, they are exempted from the regulations.

These 156 plants included a number of smaller, captive power plants. If we consider only the major power plants (those being monitored by the Central Electricity Authority in its Daily Generation Report or DGR list), then the number of plants for which we could get information was only 75, and in this 34 plants were compliant with the norms and 22 were not.

Compliance with the regulations of water consumption is entirely self-reported by the respective power plants with no verification from any credible / independent agency. Most states did not give information about all the TPPs in the states, leading us to wonder whether the states are actually monitoring compliance by all the plants or just passively collecting information from whichever plant submits it, and ignoring others.

There was no uniform format in which the information was provided to us in spite of the fact that there is a prescribed standard format for reporting compliance with the regulations. In many cases, the information provided to us was several months old, or even from earlier years, raising the question as to whether the collection of compliance information is being done on a regular basis.

+91 98560 98360

HELP@MISSIONENERGY.ORG

HTTPS://MISSIONENERGY.ORG/WATER2022/

### LACK OF SERIOUSNESS

Neither the MoEFCC, nor the state pollution control boards (SPCBs) which are responsible for monitoring the compliance with regulations, seem to be serious about enforcing the norms.

The compliance monitoring figures are not in public domain. The only action that SPCBs seem to be taking in cases of non-compliance is to write to the plants to comply.

Further, CPCB / MoEFCC have tried to allow the thermal power plants an open ended extension of time period to meet the standards in a manner that is legally questionable. Just as the deadline to meet the norms ended on 7 Dec 2017, the CPCB wrote, on December 11, 2017, to all power plants, stating among other things that "the time line for compliance of water consumption limit shall also be finalised in consultation of plants."

### RECOMMENDATIONS

All SPCBs and the CPCB must ensure that all TPPs meet the water consumption norms given in the Dec 2015 Notification with immediate effect, as the deadline has long passed.

All SPCBs should collect the data related to compliance with these water consumption norms in a regular manner and such data should be in the uniform, prescribed format for all TPPs no matter in which state.

All this data along with the compliance status should be put out suo moto in public domain. Compliance can be self-reported, but verification by independent credible agencies and the SPCBs is a must.

SPCBs should initiate action against those not meeting regulations, and put that in public domain so that local communities can follow up.

## WHO SHOULD PARTICIPATE

Thermal Power Plants - Captive Power Plants - Independent Power Producers - Policymakers and Regulators - EPC Companies - Wastewater and Effluent Treatment Companies - Desalination Plant Suppliers - Flyash Disposal Technology Providers - Instrumentation & Monitoring Solution Providers - Power Plant O&M Providers - Other Technology Providers - Equipment Manufacturers - Engineering Consultants - Water Management Consultants - Energy Efficiency Consultants - Certification and Inspection Companies - Pollution Control Boards - R&D Organisations...etc.,

## History of CONFERENCES organised...

### Presentation and Paper Submission

The Programme Committee encourages you to send abstracts/papers. The abstract must not exceed 8 pages for oral presentation with tables and illustrations. Abstracts/papers will only be accepted in electronic form (MS Word) to be submitted by email to below.

The deadline for abstracts/papers submission is **15 July 2022.**

**Contact:**

Ashwinkumar Khatri - Director General  
dg@missionenergy.org | +91 98339 51556

### Sponsor Now!

Our aim is to deliver you an event that exceeds your expectations, thus becoming an integrated part of your annual marketing program.

**Sponsoring WATER OPTIMISATION - 2022** will make your company stand out as a leader in this burgeoning industry and will leave a strong impression of your brand in key decision makers minds. Sponsors have an incredible amount of presence and it will not only give your company optimum exposure but also the opportunity for delegates to meet you and your executives to find out more about your role and business opportunities in the sector.

- Gain **PUBLICITY** with our advertising and promotional campaigns
- Obtain **DIRECT ACCESS** to potential clients during and after with our meticulously prepared confidential delegate list
- Receive a **KEY SPEAKING POSITION** to address an audience of top executives and decision makers from the industry
- Create **PERMANENT REMINDERS** of your product or services in conference documentation
- Profile yourself as **INDUSTRIAL LEADER**, as your corporate logo and profile will be featured prominently in event marketing collaterals
- NETWORKING** with the industries leading Government Officials, Senior Level Delegates and Experts
- Achieve **GREATER EXPOSURE** and **BRAND BUILDING** through our partners and much more

8 - 9 September 2022  
at Hyatt Centric, New Delhi.

**OPTIMISATION 2022**

Conference + Expo + Awards

## EXPO 2022

Throughout during the conference days, there will be a select number of leading solution providers who will discuss and advise on their latest products, solutions and services to a targeted number of senior level decision makers and technology-including regulatory affairs, financing structures and many more... Make sure you stay ahead of the competition and **SECURE YOUR PLACE NOW!**

You will benefit from multiple opportunities to talk with the clients and prospects you want to do business with and kick start your sales. All under one roof and all in just two days - saving you both time and money!

As exhibition space is strictly limited and is already booking fast! For booking of exhibition space, contact our representative right now!

### Exhibit Now!

Indian Company: INR 12500 / Sq. Mtr. + 18% GST  
Overseas Company: USD 650 Per Sq. Mtr.

To Book your STALL contact:

**Purnendu Kumar - Project Manager**  
pkumar@missionenergy.org / +919819674246

### Benefits

Exhibiting at **WATER OPTIMISATION - 2022** is a cost effective and invaluable tool to help deliver your technology, product, equipment and services to senior decision makers of your core target market and will help grow your business in following ways

**ENFORCE** your **BRAND** and promote your services to generate and customers bases interest

Meet senior level decision makers to **EASE** of doing **BUSINESS**

Make new contacts and **BUILD** lasting **RELATIONSHIPS**

**DISPLAY** your **CAPABILITIES** at an international platform to those developers, utilities and manufacturers who need your project financing services or project development technology.

Take advantage of a central point of contact from which to **DEVELOP BUSINESS** and raise your profile in this growing sector.

**STRENGTHEN** existing **BUSINESS PARTNERSHIPS** and create profitable new leads as you interact with your core customer base.

### Visitor Profile

Participants will benefit from the high quality information exchange and networking opportunities. The expo will be marked by the presence of key decision makers and key players from the government and corporate world in India and abroad:

- Diplomats and senior government officials including policy makers and regulatory authorities
- Senior industry leaders from power, coal, chemical, petroleum and many other sectors
- Senior management teams from renowned private and public sector companies
- Entrepreneurs, technologists, operators and service providers
- Energy associates, producers and consumers
- International suppliers and trade organizations
- Equipment suppliers and service Companies
- Environmentalists, research and development scientists
- Investment banks & financial institutions

### EXPO Layout

**Center Stall**

**ENTITLEMENTS**

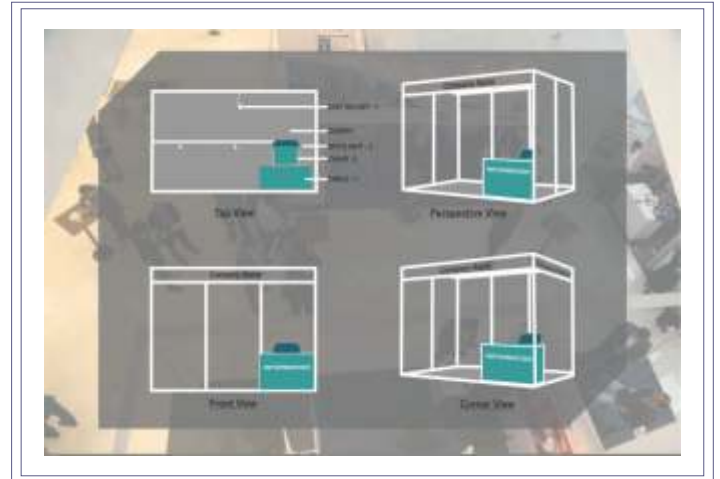

- Modular Shell Stand Structure
- Two Chairs & One Table
- Fascia with Company Name
- Power Socket for Power Supply

**Corner Stall**

**Stall Size**

- Back Wall Length :- 115 Inches
- Side Wall Length :- 75 Inches
- Stall Height :- 95 Inches

### HALL Layout

## AWARDS

The objective of **Water Optimisation AWARD 2022** recognise outstanding contributions by organisations and individuals involved in formulation of policies and programmes and their implementation, research & development, design, execution, management, smart consumption of water, manufacturing of equipment and capacity building in furthering the thermal power sector of our country.

The **Water Optimisation AWARD 2022** will be presented to utilities and its services sector who demonstrate highest level of commitment and best practice in smart consumption of water at thermal power plants. Over the years the awards will aim to recognize exemplary operations, systems and the evidence of their impact to business vitality. The awards serve as a catalyst to understanding the intrinsic value of business excellence and sustainability.

The Winners of **Water Optimisation AWARD 2022** shall be honoured valedictory session of the conference i.e., **09 September 2022**.

### KEY DATES TO REMEMBER

20 June 2022  
Nomination Opens

15 August 2022  
Nomination Closes

09 September 2022  
Winners shall be awarded

# Organiser

## **The Organisation**

Mission Energy Foundation is a persistent, private, not-for-profit endeavour based in Mumbai, India. We are registered under sec 25 (1), 80G & 12AA respectively.

## **The Beginning**

A single man army with its mission to build platforms of discussion, exchange knowledge among industry professionals on core issues pertaining to growing energy sector.

## **GOAL**

Mission Energy Foundation is a micro-enterprise initiative that strives to spread knowledge in the globalising energy sector. We educate and spread technology awareness through ongoing contacts and discussions with the public and industry concerning what the future of the growing energy sector should be...

## **Today**

A human asset working together as one endeavour that expertise in organising and delivering successful international summits involving who's who from Entrepreneurs to Academicians to Government Authorities to Technology Providers to Consultants to Industry Professionals from the growing energy sector globally.

**Mission Energy Foundation (A not-for-profit Organisation)**

(For more than 3 delegates kindly make copies of the registration form)

### Payment Terms

Payment is required within 10 working days on receipt of invoice. If a booking is received 10 working days before the conference a credit card number will be taken to confirm your place, likewise if full payment has not been received before the conference date.

#### NOTE:

- Kindly fill the registration form completely
- Kindly provide with a valid email id for correspondence
- A confirmation of the registration will be sent via email after receipt of the payment
- No refund will be made in case of no-show / no-attendance
- Registration fee is exclusive of Government taxes as applicable

#### Cancellation Policy:

Should a delegate be unable to attend, a substitute delegate from the company is always welcome at no extra charge. Alternatively, for any cancellations, the following rules shall apply

- 70% refund of registration fee if cancellation is done on or before 20 working days of the schedule
- 50% refund of registration fee if cancellation is done on or before 15 working days of the schedule
- Thereafter, no refunds can be made

#### Important note:

Please quote the name of the participant and event title on the advice when remitting payment. Bank charges to be deducted from the participation organisation's own accounts. Attendance will only be permitted upon receipt of full payment. It may be necessary for reasons beyond the control of the organiser to alter the content or the event date or location or the identity of the speaker/s.

**Post:** 003, B-16, Sector 1  
Shanti Nagar, Mira Road (East)  
Thane, Maharashtra – 401107

### Group Discount

**Mission Energy Foundation** recognises the value of learning in terms. Group bookings at the same time from the same company receive discount:

3+ Delegates	5%
7+ Delegates	10%

This offer is exclusive of the early bird discount. Call us for a special discount rate for terms of 10 and above (Not applicable to clinic(s) only bookings).

### Payment Methods

#### By Check/Bank Draft :

All instruments to in favor of  
“**Mission Energy Foundation**” (payable at Mumbai) and send to, Mission Energy Foundation

## Payment Terms

Payment is required within 10 working days on receipt of invoice. If a booking is received 10 working days before the conference a credit card number will be taken to confirm your place, likewise if full payment has not been received before the conference date.

### NOTE:

- Kindly fill the registration form completely
- Kindly provide with a valid email id for correspondence
- A confirmation of the registration will be sent via email after receipt of the payment
- No refund will be made in case of no-show / no-attendance
- Registration fee is exclusive of Government taxes as applicable

### Cancellation Policy:

Should a delegate be unable to attend, a substitute delegate from the company is always welcome at no extra charge. Alternatively, for any cancellations, the following rules shall apply

- 70% refund of registration fee if cancellation is done on or before 20 working days of the schedule
- 50% refund of registration fee if cancellation is done on or before 15 working days of the schedule
- Thereafter, no refunds can be made

### Important note:

Please quote the name of the participant and event title on the advice when remitting payment. Bank charges to be deducted from the participation organisation's own accounts. Attendance will only be permitted upon receipt of full payment. It may be necessary for reasons beyond the control of the organiser to alter the content or the event date or location or the identity of the speaker/s.
